

**Petition of Support
To U.S. Congressman Peter King**

Chairman, Subcommittee on Emerging Threats,
Intelligence Committee of the House of Representatives

Whereas, as Secretary of State, Hillary Clinton gave her approval to the Russian purchase of the company Uranium one, giving them control of 20% of U.S. uranium supplies, and

Whereas, as FBI Director, Robert Mueller investigated and cleared this effort by Hillary Clinton and her allies in the Obama Administration and then helped cover up what happened, and

Whereas, the real “collusion” with the Russians is Uranium One, and
Whereas, Congressman Peter King has asked “what did they know, and when did they know it,” and

Whereas, Congressman Peter King and his subcommittee want to investigate this matter thoroughly, determine the extent of the criminal conspiracy to coverup what happened, and put pressure on the Justice Department to prosecute wrongdoing,

Therefore, the undersigned does fully support Congressman Peter King’s inquiry and does encourage him to continue his efforts to investigate Uranium One wrongdoing.
